Cover Letter for Christian Mendez

To Whom It May Concern,

I'm contacting you to express my interest in the Information Systems Risk Analyst at Fresenius Medical Care. After analyzing the job descriptions and qualifications, I believe my educational experiences and personal values make me an ideal candidate for the role.

I'm a hardworking, detail-oriented individual that truly values the opportunity presented by your company for a new graduate to make their mark in the cyber security world.

As mentioned in my resume, I'm well versed in a multitude of languages and technology platforms including: Fluent in Spanish, Java, Linux OS, Wireshark, Squil, Nessus, Snort, Penetration testing and NetworkMiner. Experienced analyzing PCAP files for security breaches and malware. I thoroughly enjoy collaborative projects, working at a fast pace, communicating with others and solving complex problems.

I look forward to discussing this opportunity in more depth. Please contact me by phone or email at your earliest convenience. Thank you for your time and consideration.

Sincerely,
Christian Mendez
